

Hauser CB

České Budějovice, Czechia

Project Description

HAUSER is a traditional supplier of turnkey refrigeration systems, for example in the form of refrigerated shelves, counters and freezer cabinets. Besides its headquarters in Linz, Austria, the company also operates a plant in Budweis, Czech Republic. An office building there was equipped with ceiling and floor systems from Lindner. In cooperation with the local partner Kunstruktis Delta s.r.o., Lindner Plafotherm® DS 320 Type 1 metal ceilings with integrated heating and cooling functions were supplied. With regard to the floor systems, LIGNA and NORTEC raised floors were used.

NORTEC
Chipboard panels
LIGNA

50 sqm

1800 sqm
