

# Federation Tower

Moskow, Russia

© Lindner, Arnstorf (D)

# Project Description

The Federation Tower is located in the business district 'Moscow City'. It is currently under construction and will be the tallest building in Europe after completion in 2016. The building offers high quality office space on 60 floors. Lindner was responsible for the complete interior fit-out including the engineering systems of the 42nd floor. The first Lindner heating- and cooling system in Russia was installed on these business premises.
