

# Cutty Sark

London, United Kingdom

# Project Description

Cutty Sark is a true London landmark and national icon of British maritime history. Built in 1869, Cutty Sark is the only surviving example of a clipper ship. As part of the renovation, the ship was raised three metres from the floor of the dry dock to allow the construction of a state of the art museum space below. Lindner installed a FLOOR and more® comfort hollow floor to the museum and reception areas, with an area of FLOOR and more® in the ship's bow and cafe.

## General

<b>Building Type</b>	Museums
<b>Company Division</b>	Lindner SE   Floors
<b>Completion</b>	2012
<b>Client</b>	Ellmer Construction
